

MATTHEW MARRIOTT

Web Developer

Summary

Portfolio: <https://port-inky.vercel.app>

Github: <https://github.com/muks80>

I am a self-taught web developer with a strong knowledge of JavaScript (ES6), React, CSS and HTML. During lockdown, I put time to good use and started my coding journey by completing a number of courses and building my own projects to hone my newly acquired skills. Once I started I instantly got a buzz from problem solving and creating genuinely useable apps that work. I was hooked and knew coding and web development was what I wanted to pursue as a new career. I am looking for the right opportunity to develop my skills further and become a full stack web developer in the future.

My background has been in financial services working in teams in a high pressured environment where excellent communication, interpersonal and time management skills were essential. This is something I hope to be able to bring with me into my next role given the opportunity.

Work Experience

BNP Paribas Asset Management - *OTC Derivatives Middle Office Analyst*

01/09/2014 - 26/02/2021

Part of a team supporting the London OTC derivatives trading desk and fund managers ensuring the smooth transaction through to settlement of all trades on a daily basis. Great team work was essential in a fast paced environment requiring excellent communication with a number of stakeholders including traders, portfolio managers, legal and back office teams.

JP Morgan - *OTC Derivatives Trade Support Analyst*

October 2010 - March 2014

Skills

Core skills - JavaScript, REACT, Next.js, CSS, HTML, Material-UI, Semantic-UI, Materialize
